NKBA Annual Member Directory 2020 5
The Smart Choice for Your New Kitchen or Bath: NKBA Certified
By Nissa Hallquist
Don’t let the process of remodeling a kitchen or bath overwhelm you! Make the “Smart Choice” and call a NKBA professional. With certification comes abundant knowledge, experience and professional standards.

2020 NKBA Design Competition Winners
Recognizing the superior professional designed work created by NKBA members of the California Capital Chapter.

Great Times with the California Capital Chapter
Our Year in Review. A fun look back at the NKBA California Capital Chapter’s parties and fundraising events.

NKBA Mission Statement
To enhance member success and excellence, promote professionalism and ethical business practices.

Members Categorized Directory

Mark-It-Place Showcase
“Mark” this place and refer to “It” often to “Place” your calls to these industry leaders “Showcased”!

NKBA Certifications
Since 1964, NKBA certifications remain a mark of excellence in the kitchen and bath industry.
High-end full service design firm balancing the aesthetic with clients’ lifestyle and personality.
Hello and Welcome to the 9th Annual Kitchen and Bath Design and Remodeling Guide and Member Directory for the NKBA California Capital Chapter.

For many years, the NKBA Member Directory has been a valuable resource for our professional industry and homeowners, and this year is no different. In this issue, you will find professionals represented from every sector of the kitchen and bath industry, whether it be Interior Designers, Contractors, Suppliers, Vendors, Manufactures, Fabricators and Installers; all of whom are key players when it comes to remodeling your kitchen and bathroom spaces.

Our local Chapter is continuing to grow, and with the support from our leadership at the national level, we will continue to offer extraordinary design ideas, best practices, and knowledge and expertise in designing kitchen and bathroom spaces. As we look back and try to fully capture all that we have done in 2019, our efforts were successful, and we are proud of our achievements. We offered educational and informative programming and speakers at our monthly meetings, partnered with other design organizations such as NARI for the Annual Golf Tournament and Chopped Challenge event, offered a web-based platform for our Annual Design Competition, and most honorably, our ongoing community outreach efforts as we are continuing to assist one of our members in rebuilding their home lost during the Camp Fire in Paradise, CA.

We look forward to all that year 2020 has in store for our local Chapter and at the national level. Many of our industry’s powerhouse brands are at the forefront of new product development, and emerging technologies, and so we are excited to see, specify and incorporate these products in your projects. We also look forward to more educational opportunities which will allow us all to advance our knowledge and expertise in the area of kitchen and bath design.

Fulfilling my duties and responsibilities as President of the NKBA California Capital Chapter will require great partnerships, open communication and support, and with that, it is my great pleasure to serve the Council and Chapter Membership as President for the upcoming term. Thank You and I look forward to working with you all.

Best regards,

Marosi White,
President, California Capital Chapter, NKBA

Letter from the President
If you’ve started looking to hire someone to help you realize your dream bath or kitchen, you have no doubt noticed the incredible number of designers and contractors out there. In a way, the broad selection is impressive. On the other hand, it’s a bit intimidating. In fact, it could be so overwhelming that you don’t even know where to begin. You may wonder if you’ll actually ever be able to determine the perfect person for your particular project.

Seeing a kitchen or bath designer’s professional affiliations is one of the best ways to start narrowing down your options. You can narrow them down even further when you see the NKBA logo, designating that professional as being NKBA certified.

So what does the NKBA designation really mean? What sets an NKBA certified professional apart from one who isn’t certified?

**NKBA certification requires extensive (and continuing) education and experience in the kitchen and bath industry.**

Even the most basic NKBA certification requires no less than two years hands-on experience and 30 hours of formal education in the kitchen and bath design field. And those numbers build exponentially with each consecutive certification.

In order to maintain current certifications or gain more advanced ones, continuing education is a necessary requirement. Through this requirement, the NKBA helps its members keep up with the continual evolution of technology and materials on the market today, as well as changing building codes and regulations. NKBA course curriculum, articles and newsletters cover all the latest in kitchen/bath design, safety and regulations, space planning, sales, project management, drafting, manufacturing, cabinet design, installation, plumbing, hardware, electrical systems, etc.

All of this ongoing experience and education helps members keep their existing skills sharp and make them even sharper over time.

**In addition to design and building skills, NKBA members must adhere to high standards of ethics and professionalism.**

A successful kitchen or bath project depends on more than just technical skills. It also depends on the contractor or designer’s ability to communicate and
establish a trusting relationship with their clients. That is why the NKBA places so much emphasis on superior professional conduct and ethical standards.

NKBA members pride themselves on their ability to listen to your wants and needs, taking them and turning them into your ideal kitchen or bath. And if something you thought you wanted isn’t going to work, they are able to offer you better alternatives that you might not even know existed or felt you could afford. You know all your options, as well as how much they should cost and how much time and effort it should take to bring them to fruition.

Ultimately, NKBA members have pride in their work. It shows in both their workmanship and their respect for the clients who trust them enough to allow them into their homes.

Your kitchen or bathroom is exactly what you envisioned, or better, after using the best, most cost effective, and energy efficient materials and techniques.

Much of the most innovative building materials and design and construction methods were born out of consumer demand for smartness, efficiency and sustainability. One of the NKBA’s future goals is to be a leader in sustainable, or green, design. As such, they are greatly expanding their educational programs in that area. This means that NKBA members are always aware of all the innovative green processes and products continuously coming out on the market.

So, again, what do you get when you select an NKBA member?

Abundant knowledge, experience and professional standards. Working with an NKBA professional means that the process of getting your new kitchen or bath is just as pleasant and rewarding as the final product (well, almost).

For more information on the benefits of choosing an NKBA certified professional, visit www.nkba.org or www.sacnkba.org.

We are pleased to announce

The 2020 Design Competition award winners.

This competition recognizes the superior professionally designed work created by NKBA members of the California Capital Chapter. The competition is measured by:

• Visual Appeal: This area considers the overall aesthetic appeal of the project.

• Creativity: This area considers the use of innovative solutions, products, and materials.

• Basic Safety and Ergonomics: This area considers the NKBA kitchen and bath planning guidelines.

• Elements and Principles of Design: Elements include space, line, form and texture. Principles include balance, rhythm, emphasis, scale, proportion, harmony.

• Presentation: This area considers the quality of floor plans, interpretive drawings, mechanical plans, and photographs.

All competition entrants have the chance to enter the National Competition as well. Congratulations to all who entered.

1st Place and Judges Choice Large Kitchen:
Designed to reflect the progressive architecture, deeply rooted in the past, of the home and its environs the interior of this expansive kitchen is both minimal in its design aesthetic and complex in its attention to detail. Sophisticated rough hewn oak cabinetry paired with sleek concrete tile and crisp quartz is juxtaposed with textured rock, stainless appliances and walls of glass creating a functional, warm, inviting space for the serious chef!
1st Place Large Bathroom and Judges Choice Award:
Elma Gardner, CMKBD, CID - By Design Studio Inc. and Michael Gardner - Luxus Design Build

A minimalistic design aesthetic with a sense of luxury! A wall of glass overlooks the pool from this spacious master bath with dual floating vanities and luxurious digitally controlled showering experience. The teak clad tub surround, shower ceiling and floor add warmth, texture & drama to the space.
1st Place Medium Kitchen: Cindy Garten - Unique Techniques

STRIKE A 1950’S MISMATCH - Adding the classic black and white checkered floor was a must-have for this 1950’s vibe. Adding even more retro personality, the Mid-Century Modern style appliances were specified in a 1950’s blue which mismatches the client’s own authentic mid-century white range.
2nd Place Large Kitchen: Vivian Khoury, CID, AKBD, CAPS – Khoury Design

This kitchen was transformed from a dark traditional space to a white timeless look with elegant features including white inset cabinets, waterfall edges at the island, brushed brass accents, glass panel at the pantry and glass and mullions at two transom wall cabinets. Hardwood flooring adds warmth to this elegant designed kitchen which opens to the dining room.

2nd Place Medium Kitchen: Carrie Boesch, CID, CKBD, CGBP - C. Boesch Design

MIXED BLESSINGS. This transitional style kitchen was designed after a 300 year old oak tree fell on the clients' home. With a love of cooking and an open space concept in mind, my client’s dream kitchen became a reality.
1st Place Medium Kitchen: Kendall Sears - Guchi Interior Design

This complex kitchen boasts ten-foot ceilings, a large sit-at island with a separate prep station for cooking, a wine bar with refrigerator, a coffee bar including a cookbook library as well as a breakfast nook. The warm woods, natural textured laminate and warm lighting create a welcoming environment for entertaining.
2nd Place Large Bathroom: Katherine Kawaguchi - Guchi Interior Design

Luxury abounds in this updated master suite with decorative products coming from Nature’s inspiration. Shower and vanity copper accents as well as cut pebble stones invite you to relax on the natural quartzite bench seat or make up area. Shoji screen wall sconces and beautiful wood cabinetry adds panache to this luxurious bathroom as does the glass panel doors.

3rd Place Medium Kitchen: Alison Tillitz - Guchi Interior Design

The large kitchen needed better flow and room for multiple chefs. Rotating the island moved the heart of the kitchen to the long perimeter wall, creating a larger work area and giving more space for seating at both the island and eat-in breakfast table. A mixed metal decorative backsplash and stainless-steel hood contrast with the white materials and create a dramatic focal point.

3rd Place Large Kitchen: Cindy Garten - Unique Techniques

Comfortable Mediterranean-Style Villa. In an era where clean lines and contemporary design reigns, these clients stay true to their love of the Spanish Mediterranean style while building their dream home as depicted in their kitchen and dining area.
1st Place Small Kitchen: Katherine Kawaguchi - Guchi Interior Design

Small spaces work in this kitchen. This condo is located in a 55 & older community and boasts light cabinetry, updated appliances and shows the local homeowners how to transform their dingy 1980’s style condo. Reflective glass backsplash adds to the light and brightness of the room. LED lighting and added counter space transforms this into a model home.
1st Place Medium Bathroom, Best Before & After and Best Accessible Bathroom: Katherine Kawaguchi - Guchi Interior Design

Open concept luxury bathroom with custom lounger was the challenge. Beauty, versatility, universal usage, with conveniences in all areas of the bathroom was the result. Heated floors, heated seating areas, waterproof cabinetry adds to the luxury. Stylish tiles show the personality of both the home and residents.
Drama, elegance and function in one small powder bath! Dramatic & bold the three dimensional tile feature wall adds textural substance to the space while the rough hewn contemporary floating cabinetry and honed marble vessel sink etched in gold metallic finish add warmth to this small space.
2nd Place Medium Bathroom: Lori Johnson - Lasting Concepts Design

Retro 50’s bathroom meets modern classic craftsman design for two daughters. Every inch of space has been utilized with functional, aesthetically pleasing fixtures and high-end finishes. Custom cabinetry creates a streamlined luxurious feel while supplying ample storage and working spaces for each daughter. Soak up the warm soothing color palette in this elegant bathroom.

2nd Place Powder Room: Cindy Garten - Unique Techniques

Reclaimed wood, copper and steel set the stage for this Soft Spanish Jewel Box Powder Room. In an era where clean lines and contemporary design reigns, these clients stay true to their love of Spanish Design.
1st Place Specialty Room:  Elma Gardner, CMKBD, CID - By Design Studio Inc.
and Michael Gardner - Luxus Design Build

This outdoor kitchen & living space overlook the home’s inner courtyard, pool & spa with views to the Las Vegas “Sea of Lights”. Reached from the master suite via an expansive glass wall system and catwalk, this is both a private oasis and an entertainer’s dream!
3rd Place Large Bathroom: Kendall Sears - Guchi Interior Design
Clean lines and bright tiles brought light into this once dark and dated space. Between the waterfall vanity, tub apron and tub deck flowing into the shower bench, and returning into the shower pan, the sleek lines of the Calcutta quartz created a river of seamless elegance showcasing the intricate lines of the quartz.

3rd Place Medium Bathroom: Rebecca Ward & Leah Connolly - Rebecca Ward Design
This moody contemporary bathroom - with just a hint of glam - serves as the perfect place to start the day. Metallic penny-round tiles, paired with elegant sconces, angular faucets, square sinks, and slide-up medicine cabinets, create a spa-like atmosphere, with a touch of drama.

3rd Place Powder Room: Vivian Khoury, CID, AKBD, CAPS – Khoury Design
The big-impact look in this powder room results from the contrast of texture, color, and line. The rough textured earthy tone stone brings nature inside while the clean lined white vanity and countertop provides textural contrast. In addition, the sink, vanity, mirror and art niche provide strong angles while the lines on the toilet and pendants provide curves.

Title Sponsor Award - Outstanding Design in a Sub-Zero and Wolf Kitchen: Penny Lorain - Lorain Design Associates
With only 75” to work with, the kitchen was a design challenge. Sparkling white quartz countertops, Victorian-era embossed tin backsplash and light grey wood-grain cabinets tripling the useful storage transforms this kitchen into a light, bright open space.
2nd Place Specialty Room: Carrie Boesch, CID, CKBD, CGBP - C. Boesch Design

Featuring an exquisite, luxury brand of sophisticated appliances, where professional chefs demonstrate their culinary talents on the most innovative appliances in the industry, this showroom features an aquarium built into the base of an island creating a splash of unique character. Polished ‘Crystal Lagoon’ subway tile resembling underwater onyx, and ‘Wave’ pendants enhance the indulgent but tranquil ocean vibe.

3rd Place Specialty Room: Vivian Khoury, CID, AKBD, CAPS – Khoury Design

Bar chairs set next to the warm gray shaker style door cabinets and quartz countertop island invites guests to linger, socialize, and cheer for their team. Entertaining is easy with two TV’s, glass paneled refrigerator, ice machine, dishwasher and sink. Now it is time to shake and stir drinks, serve food and cheer for your favorite team.

Mission Statement
NKBA
To enhance member success, promote professional excellence and provide leadership for the kitchen and bath industry.

The NKBA California Capital Chapter Directory was created to spread the word and increase awareness of the NKBA throughout the region. It outlines in detail the educational and professional standards expected of NKBA members. It gives consumers and builders alike a convenient and reliable source for finding the most qualified professionals for their kitchen and/or bath project in the Northern California area.

Enjoy the look of a Brand New Kitchen or Bathroom for less with our Professional Home Remodeling Services.
Associate Kitchen and Bath Designer (AKBD)
An AKBD is a certified kitchen and bath professional, able to choose products, materials and finishes and plan spaces.

Certified Kitchen Designer and Certified Bath Designer (CKD, CBD & CKBD)
CKDs, CBDs and CKBDs specialize in the design, planning, and execution of residential kitchens and bathrooms. They have advanced technical and personal communication skills.

Certified Kitchen Educator/Certified Bath Educator (CKE/CBE)
CKEs and CBEs who teach residential kitchen and bath design at the college level. They understand the unique qualifications such areas require and can successfully transfer that knowledge to interior design students.

Certified Master Kitchen and Bath Designer (CMKBD)
A CMKBD is a recognized master in kitchen and bath design, with at least 7 years in the industry.

Certified Master Kitchen and Bath Educator (CMKBE)
A CMKBE has the same high level of expertise as a CMKBD, with the additional experience of teaching kitchen and bath design at the college level.

Certified Kitchen and Bath Professional (CKBP)
This is the only certification offered by the NKBA for non-designers. A CKBP is the dealer, distributor, fabricator, installer, remodeler, manufacturer, sales representative, et cetera, with a high level of knowledge and experience to successfully work with certified designers.

Other Credentials/Appellations Awarded to NKBA Members
- American Institute of Architects (AIA)
- American Society of Interior Designers (ASID & Allied ASID)
- Certified Aging in Place (CAPS) by National Homebuilders Association (NAHB)
- Construction Document Technologist by Construction Specifications Institute (CDT)
- Certified Interior Designer (CID) by California Council of Interior Design Certification (CCIDC)
- Certified Kitchen and Bath Remodeler (CKBR) by National Association of The Remodeling Industry (NARI)
- Certified Remodeler (CR) (NARI)
- Universal Design Certified Professional (UDCP) (NARI)
